TED2025

Humanity Reimagined

Vancouver, BC

The CHRO Track

About

TED2025

A TED experience is the catalyst for boundless curiosity, fostering a sense of awe, wonder and growth that leads to new possibilities. Each year, the world's brightest minds convene for a premium five-day experience with more than 80 talks, interviews, debates, workshops, interactive exhibits, hosted dinners, parties and deep “what if” conversations.

The program and the audience are curated to bring together differing perspectives from all fields, encouraging a cross-fertilization of ideas and inspiration from unexpected sources. Through this immersive experience, individuals emerge excited to make a positive change in the world.

Humanity Reimagined

AI is gaining in power at an astonishing pace, prompting a question that is both alarming and illuminating: what are humans for? At TED2025, we'll convene those who can show what human flourishing might look like in the years ahead, whether enabled by AI's superpowers, revolutionary biological technology or new visions of human creativity, kindness and connection.

The CHRO Track

Introducing an invite-only, expertly curated experience for CHROs at TED's wonderland of intellect and inspiration, featuring closed-door workshops, networking and special experiences across five days at TED2025.

Join Chief Human Resource Officers who bring visionary leadership to the world's most innovative companies as part of the Radical Innovators Collaborative at TED2025.

**Impact your organization
and the world at large**

**Collaborate with
cutting-edge thinkers**

**Radically
innovate**

**Elevate your
thought leadership**

**Gain a new perspective
for work and life**

Reimagining the CHRO

We won't overcome today's challenges with traditional ideas or business as usual thinking.

The role of the CHRO is evolving at record speed and increasingly you are the center of shaping the future of work and the workforce.

With bold action, you can enable your organization to have immense impact and shape a better future.

Join the **Radical Innovators Collaborative** to ignite transformative change.

Ideas change everything.

Chris Anderson, Monique Ruff-Bell and Helen Walters, TED2024

History & impact

TED began in 1984 as a conference where Technology, Entertainment and Design converged. Under the leadership of Chris Anderson, TED became a non-profit platform for the world's most influential and inspiring ideas.

TED is more than just the famous talks. It's a dynamic organization that champions a variety of programs and initiatives that drive positive change in the world. When you attend a TED Conference you're directly supporting initiatives like TEDx, the Audacious Project, TED-Ed, TED Fellows and many others that empower and inspire our global audience.
